“

The programme content and variety was mind blowing and done with precision ! The standards of the staff could not have been better. The collective knowledge of the presenters was of a standard and with such depth that I would be surprised if any similar tours would ever be in the same league. The fine detail, intimate knowledge imparted to the client is something that sets you apart from the other “on the bus; off the bus” operators. The way information was imparted was never boring. Amazing that after nearly 100 years there is still so much to see and that brings the whole tragic episode back to life. Where and when is the next adventure?
